

# Package: sanityTracker (via r-universe)

October 23, 2024

**Type** Package

**Title** Keeps Track of all Performed Sanity Checks

**Version** 0.1.0.9000

**Date** 2020-04-14

**Maintainer** Marsel Scheer <scheer@freescience.de>

**Description** During the preparation of data set(s) one usually performs some sanity checks. The idea is that irrespective of where the checks are performed, they are centralized by this package in order to list all at once with examples if a check failed.

**License** GPL-3

**Encoding** UTF-8

**RoxygenNote** 7.1.1

**Imports** data.table (>= 1.12.2), checkmate (>= 2.0.0)

**Suggests** knitr, rmarkdown, lintr, covr, tinytest, roxygen2

**VignetteBuilder** knitr
